

# ReverseAll Care Program

The most scientific way to fight  
obesity and restore metabolic health

reverseall.in  
care@reverseall.in

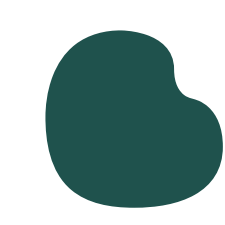

# Obesity is a disease not a lack of willpower

Obesity is recognised as a chronic disease by the World Health Organization

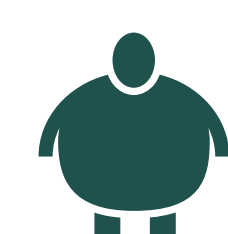

The brain misreads hunger signals, pushing you to eat more

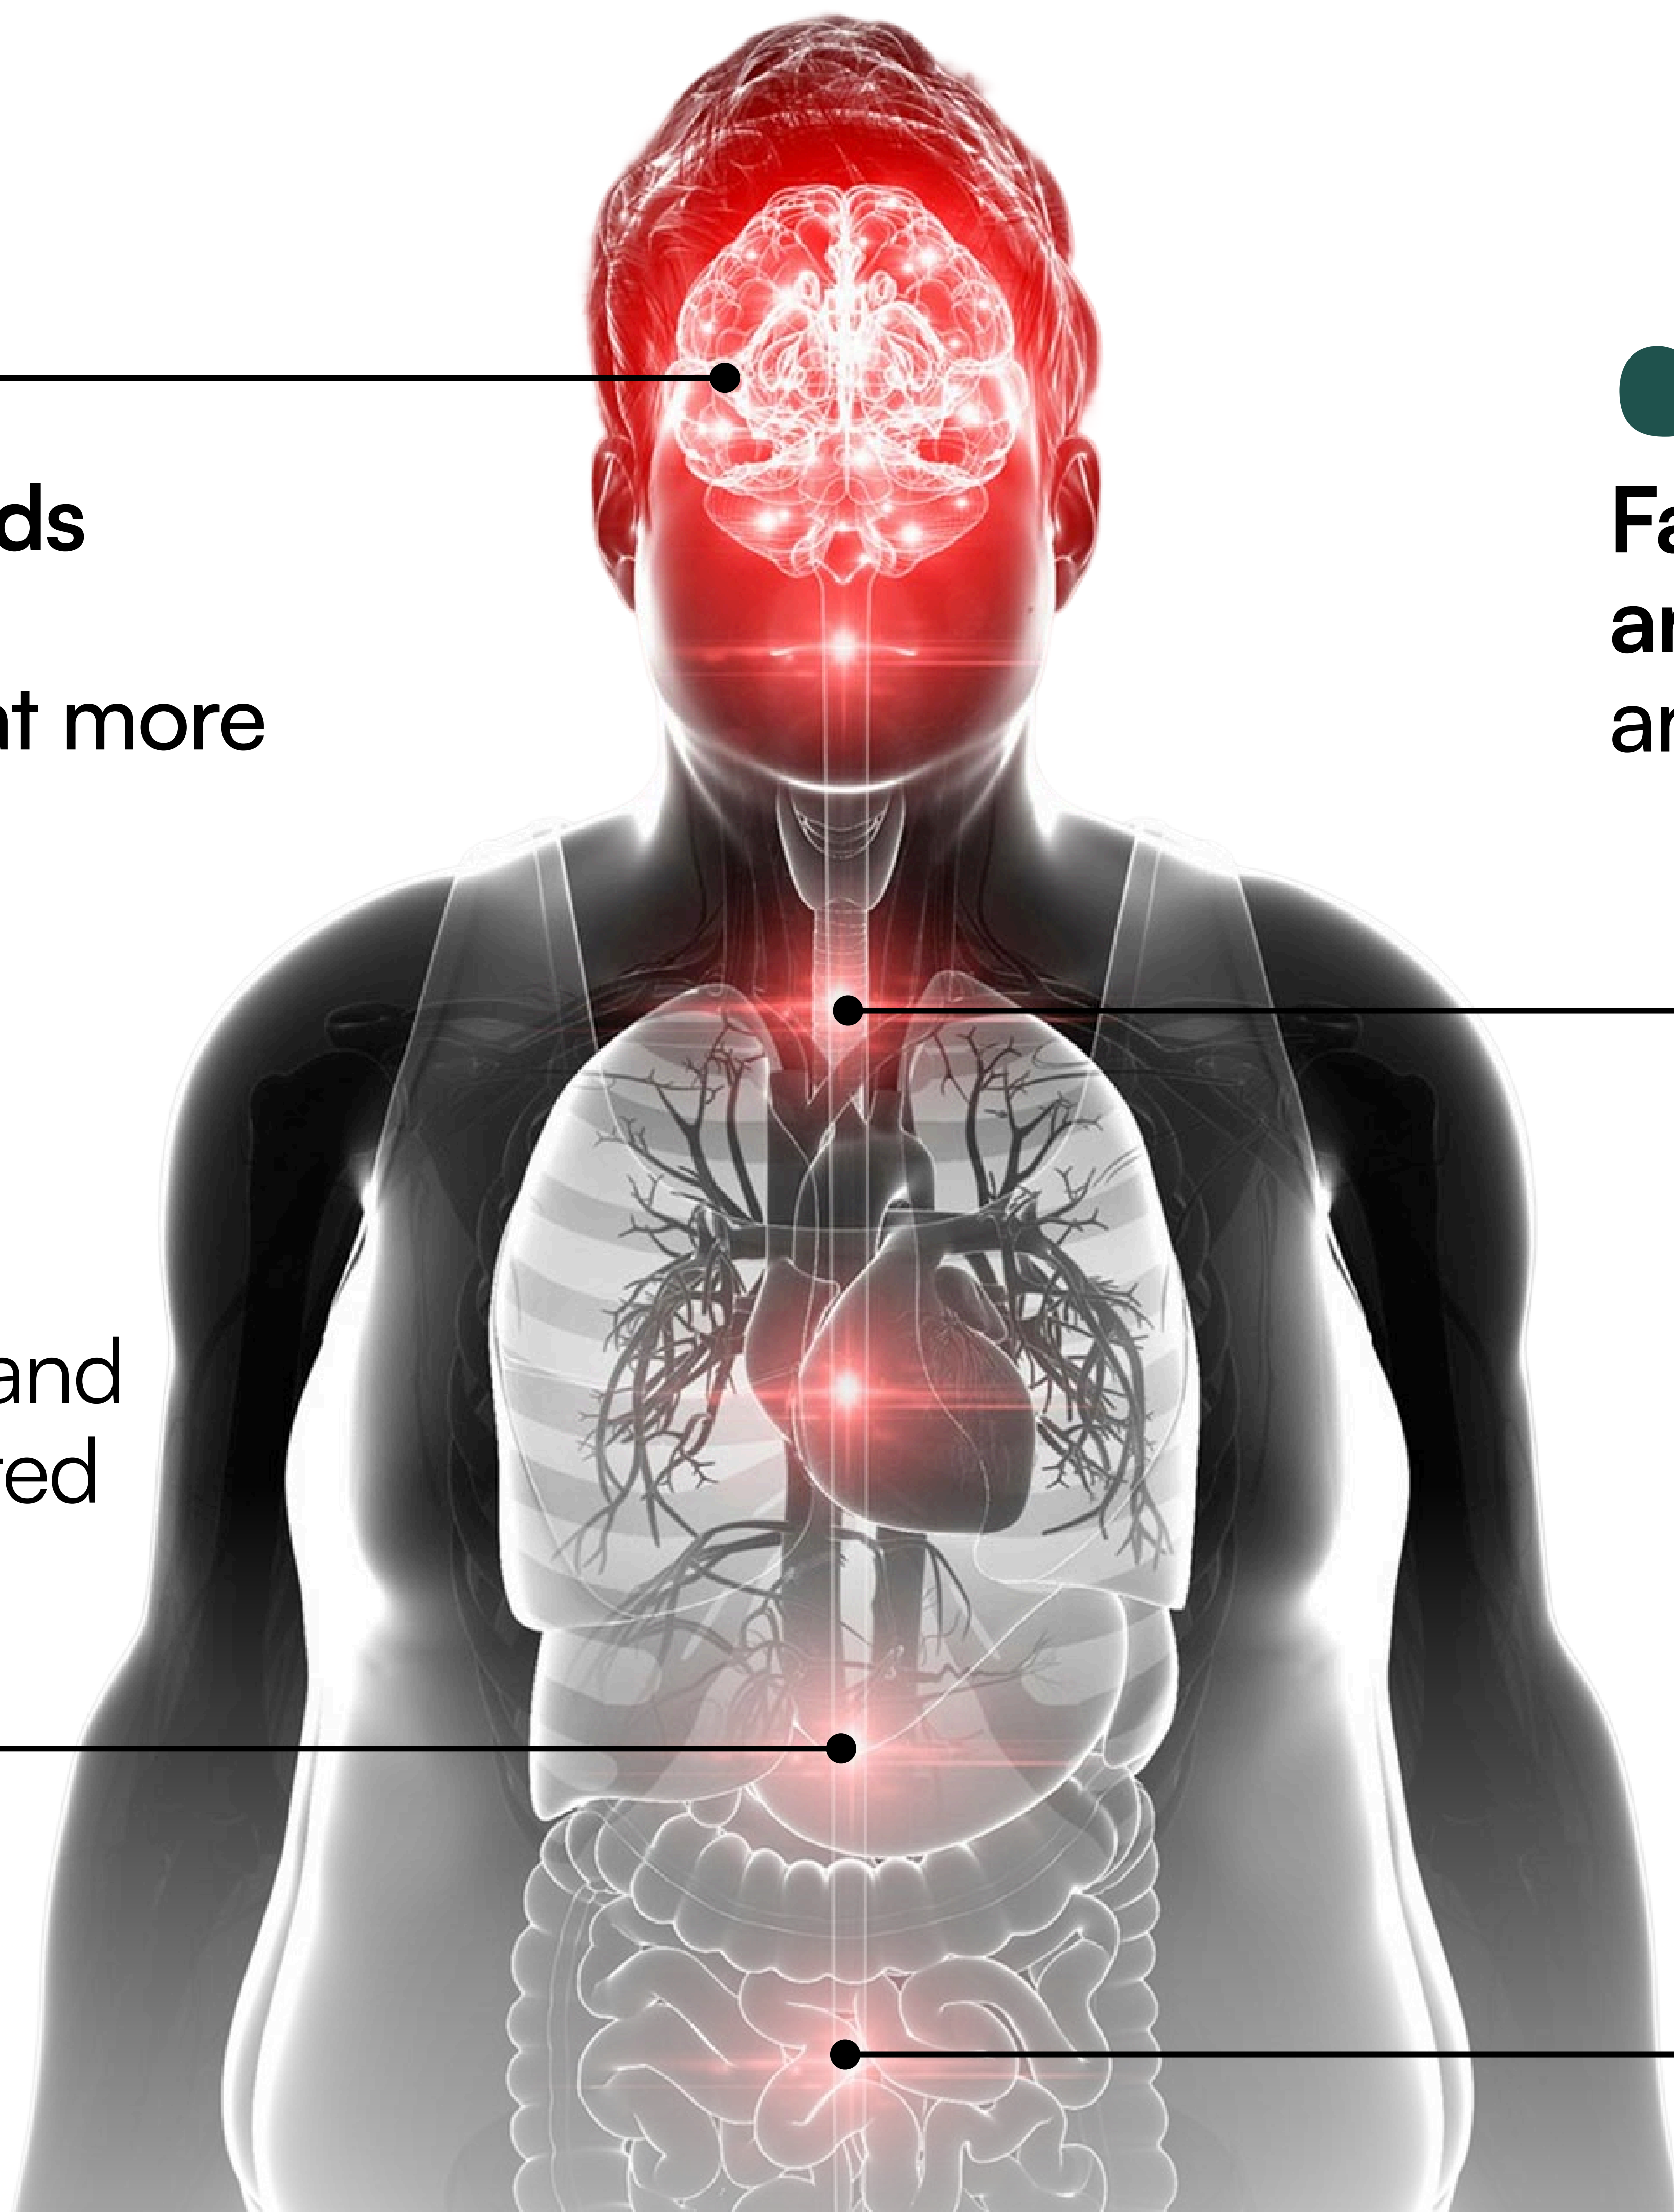

Fat builds around organs and under skin

Hormones that control appetite and energy are disrupted

Low Metabolism leads to faster weight gain

## Impact on overall health

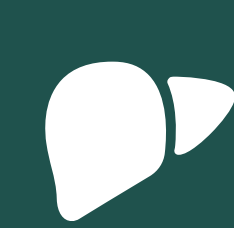

Type 2 Diabetes

Heart Disease & High BP

PCOS & Infertility

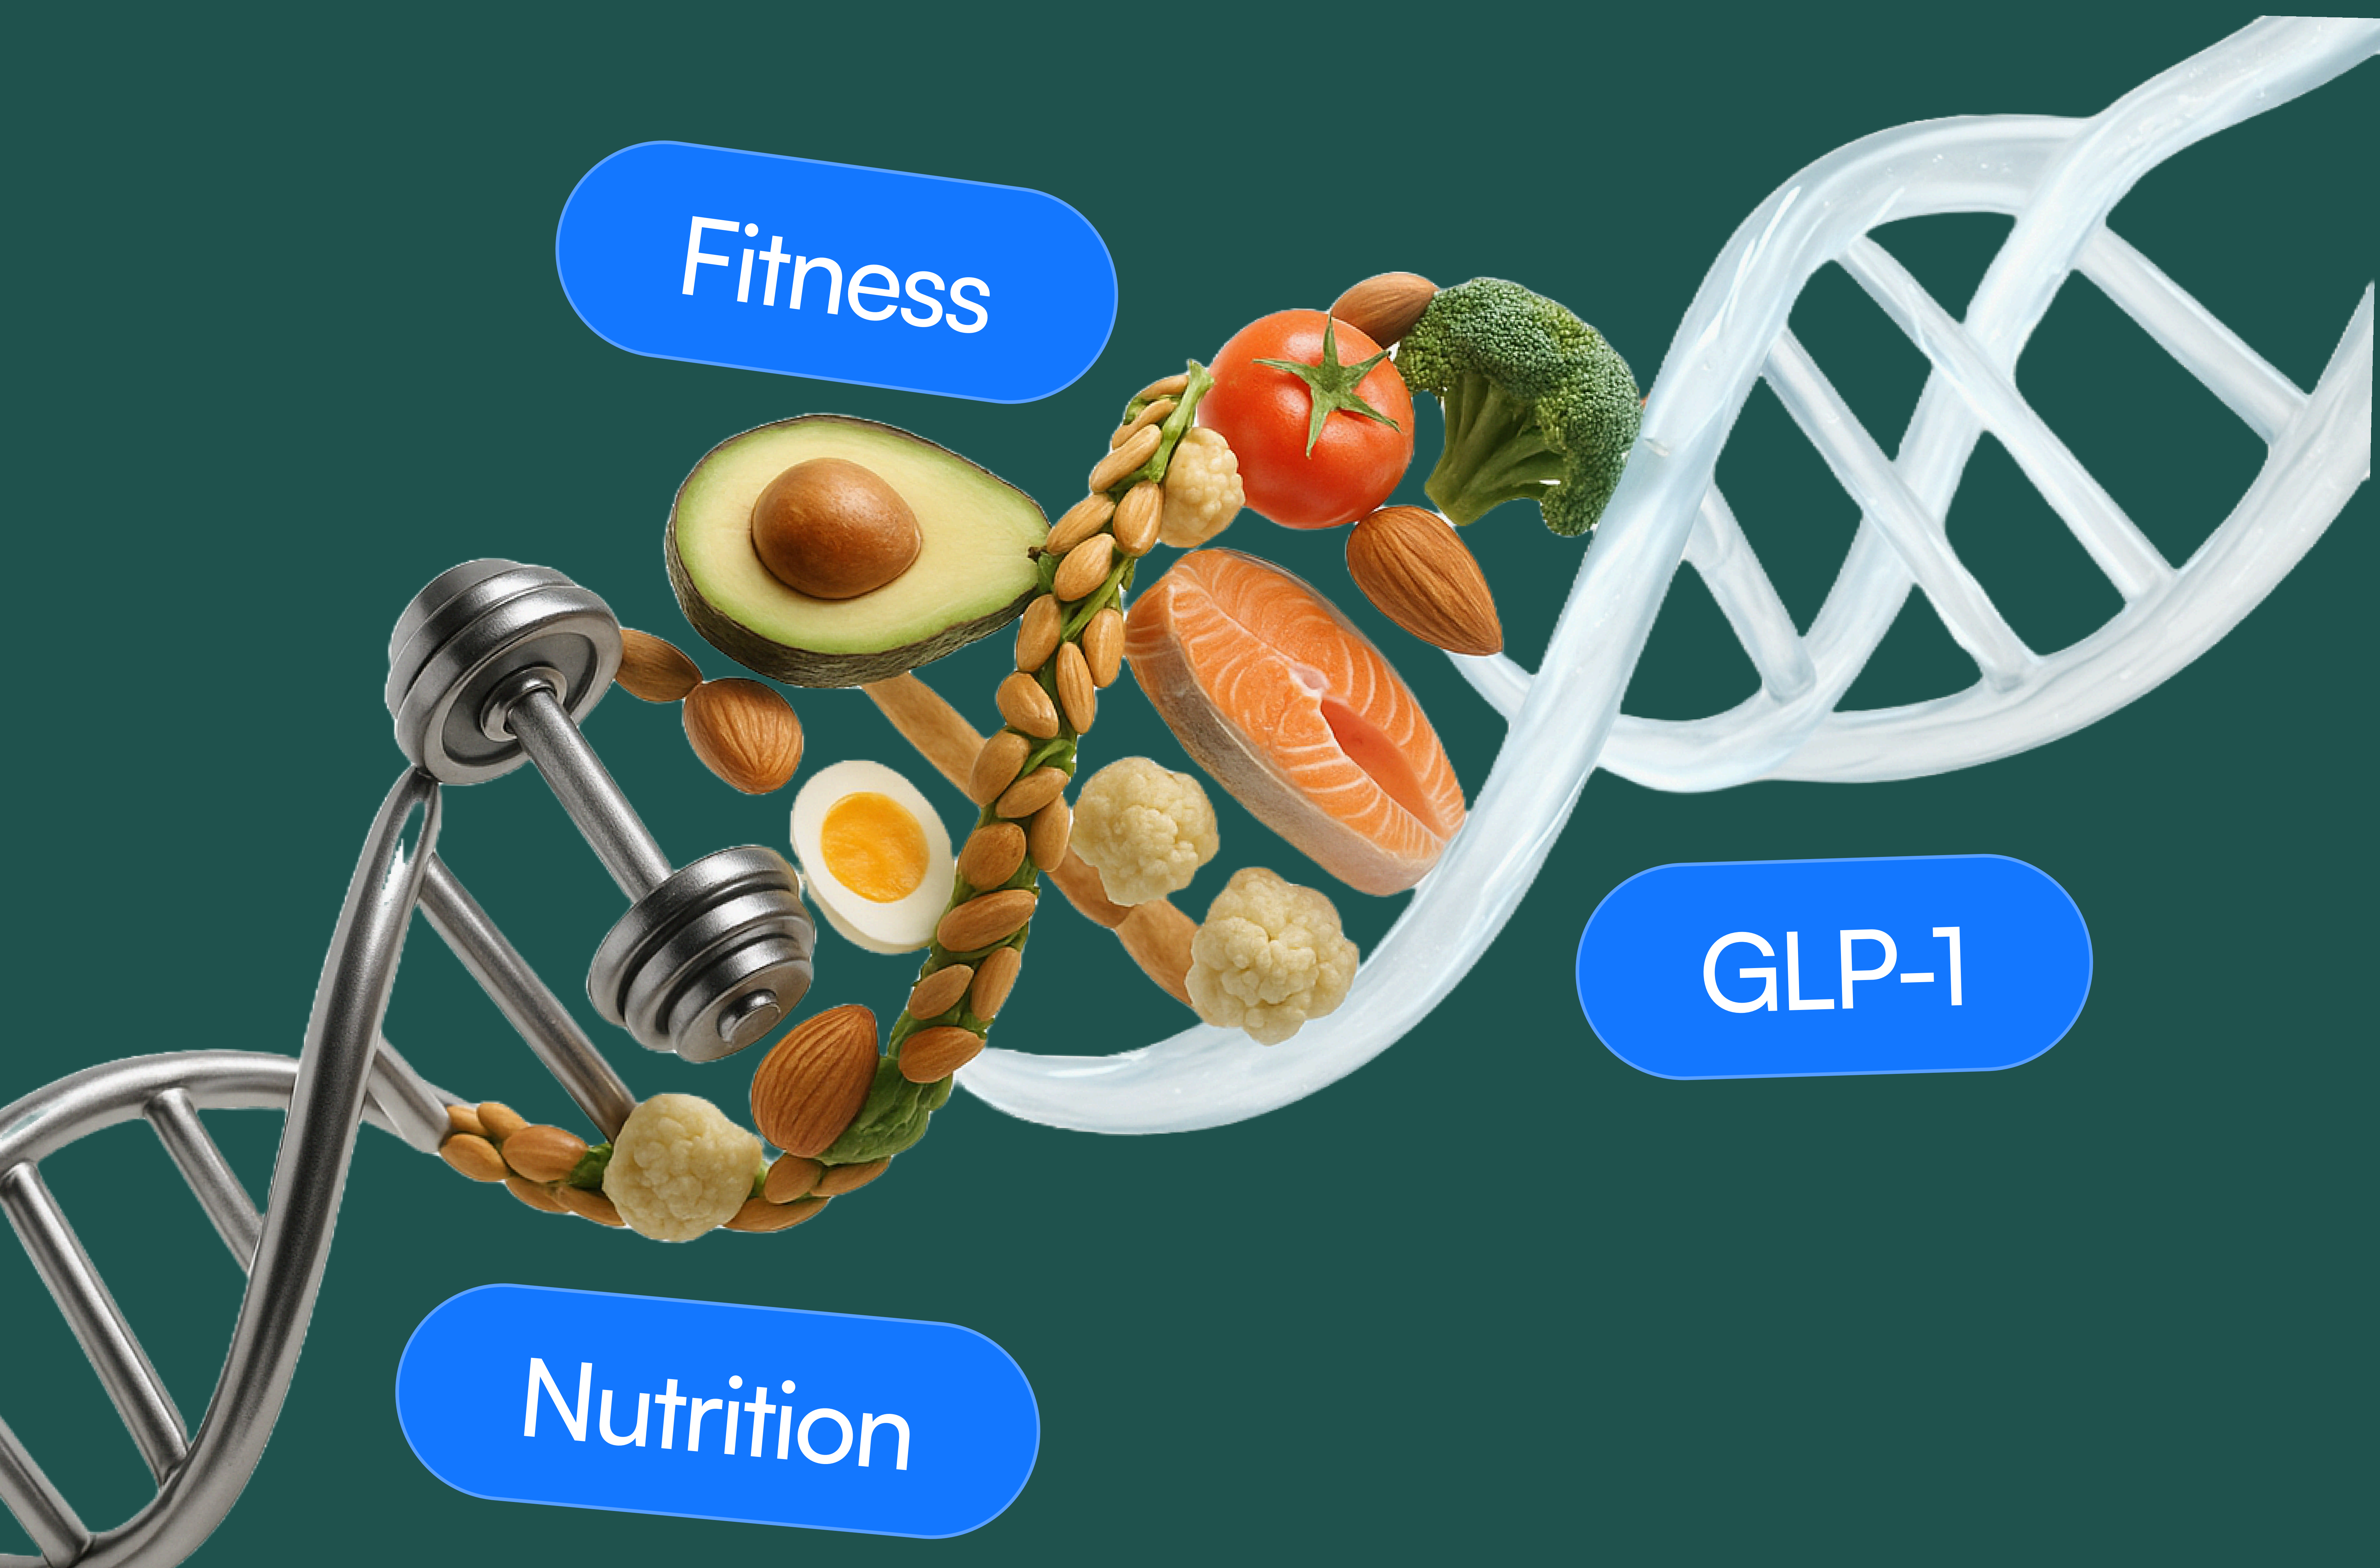

Fatty Liver Disease

Stroke & Sleep Apnea

# ReverseAll

Reverse weight gain  
Restore metabolic health  
Keep your strength

## Physician-led triple helix program for GLP-1, nutrition & fitness

The customised program integrates the impact of GLP-1 along with structured nutrition and a tailor made fitness program to achieve optimal and healthy weight loss.

# Who we help

Adults with obesity or weight-related metabolic risk

**Overweight (BMI  $\geq$ 27)**

**Prediabetes & Type 2 Diabetes**

**Sleep Apnea**

**High BP / Fatty Liver / PCOS**

**Orthopedic Patients**

**Post-Pregnancy Weight Challenges**

And anyone who needs a medical-based, muscle-preserving weight loss solution.

# How it works

## STEP 1

### Screening & Assessment

#### Pre Screening

60-sec quick questionnaire & call from care counsellor

#### Metabolic Assessment

Baseline labs & vitals check within 24 hrs

## STEP 2

### Onboarding & Plan

#### Intake Triage

Doctor consultation + case risk categorization

#### Assign Health Coach

Guides you through onboarding & program setup

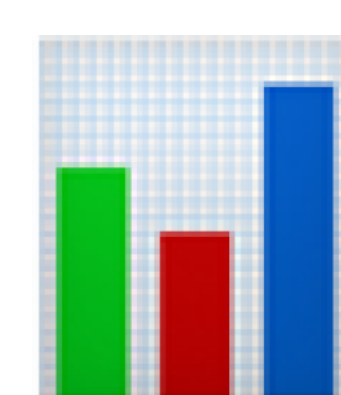

## STEP 3

### Ongoing Care & Reports

#### A Personalized Plan

Coaching, tailored nutrition, movement plan & doctor reviews

#### Monitoring & Reporting

Ongoing concierge support & quarterly reports

# Why ReverseAll

Clinically guided care combining safe medication, nutrition, movement and behavioral support for sustainable weight loss and lasting health.

## Medicine First Approach

Physician-led care with board oversight for all complex cases.

## Holistic Weight & Medication

Integrated nutrition, fitness, and GLP-1 therapy to improve weight and related conditions.

## Sustainable, Long-Term Health

Combining medical oversight with lifestyle coaching ensures lasting weight loss and stronger long-term habits.

## Muscle First Approach

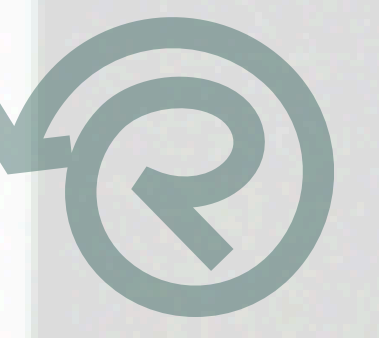

Strength-preserving nutrition and movement so you lose fat, not muscle. Personalized diet and fitness plans.

## Concierge Support

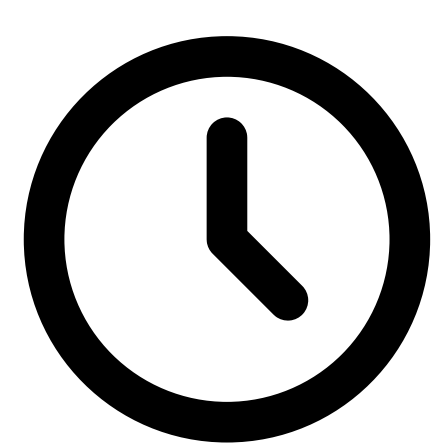

Get real-time WhatsApp support, free home delivery of GLP-1, free sample collection & quarterly results to track your transformation.

## Safe & Regulated Care

Medication, if prescribed, requires strict eligibility checks, informed consent and chain-of-custody.

## Our Promise

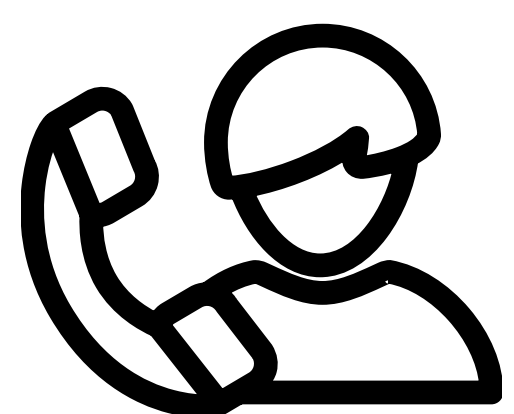

### **48 Hours Start Plan**

Get your lab tests and doctor consultation done within 48 hours on successful sign-up for the ReverseAll Care Plan.

### **Safety First, Same-Day**

We guarantee a same-day doctor response to “RED FLAGS” or any serious side effects.

### **Weekly Human Touchpoint**

Weekly Human Touchpoint so you will never get through a week without a personal check-in.
